gentle,  
powerful

Air scaler

proxeo

# Prophylaxis with style

**Fast, gentle, powerful.** The air-driven scaler with the integrated spray and two large optic outlets is ideal for the removal of plaque and calculus as well as cleaning root surfaces. The result: your patients feel better in general and more self-confident thanks to their clean teeth surfaces.

## Stepless regulation

The powerful, controlled deployment of the power can be adjusted to suit the application in question using the power regulator.

## Large optic outlets

Two large optic outlets provide perfect illumination of the treatment site.

## Tip changer

Simple changing of tips and protection against injury with the W&H tip changer.

## Integrated spray

The integrated spray continuously cools the treatment site and simultaneously washes away the abraded microparticles and deposits.

## First-class hygiene

Their smooth surface means that the instruments are easy to clean and can be both thermo washer disinfected and sterilized.

## W&H adaptor set

The W&H adaptor set makes it possible for you to clean and disinfect the tips automatically using a validated procedure in the thermo washer disinfector – inside and outside.

# Tips for every application

**Diverse and ergonomically perfect.** The diversity of the tip range and the optimal ergonomics of each individual tip make it easy for you to remove calculus gently and thoroughly even in hard-to-reach places.

## Prophylaxis Tip 1AU

For removal of calculus, universally applicable, also for curved molar surfaces inclined towards lingual.

## Prophylaxis Tip 2AU

For anterior teeth of the lower jaw, lingual surfaces and in cases of stubborn adhesion of thick, hard collars of dental calculus.

## Prophylaxis Tip 3AU

For removing plaque from the neck of the tooth and removing nicotine stains.

## Periodontology Tip 1AP

Removal of subgingival deposits, especially suitable for deep periodontal pockets.

## Periodontology Tip 2APr, 2API

Tip for removal of subgingival deposits. Right-curved and left-curved models available.

## Periodontology Tip 3AP

With a diamond coating on the instrument tip for periodontal debridement of furcations and concavities.

## Proxeo air scaler

Type:	ZA-55 L / ZA-55 LM / ZA-55 LS	ZA-55 / ZA-55 M
Light:	yes	no
Power regulation:	yes	no
Oscillating frequency:	6 kHz	
Oscillation amplitude:	< 200 µm	
Operating pressure:	3 ± 0,3 bar / 3 <sup>+0,6</sup> <sub>-0,3</sub> bar / 3 ± 0,3 bar	3 ± 0,3 bar / 3 <sup>+0,6</sup> <sub>-0,3</sub> bar
Coolant flow volume:	30 – 60 ml/min	
Coupling:	RQ-24, RQ-34 / RM-34 LED, Multiflex®* / Sirona®*	RQ-3, RQ-4, RQ-14 / Multiflex®*
Applicable W&H tips:	1AU, 2AU, 3AU, 1AP, 2API, 2APr, 3AP Tips from other manufacturers must be approved for use with W&H air scalers.	
In the scope of delivery:	Tip 1AU, 2AU, 3AU, 1AP, Tip changer
